

ProbeGuard II Specs

Dimensions (in): 3.5" OD x 17" L

Communications

- User Interface: RS232, SDI-12 (on request)
- Instrument: RS232, RS485 (on request)

Power supply (volts DC): 10 - 15

Available instrument power: same voltage as supply, 2A max

Current consumption (mA)

- idle: 14
- sleep: < 0.15
- cup motion: 100 normal, 140 during chlorine injection
- stirring: 70

Depth rating: 20 meters standard, deeper ratings available upon request

Data storage: 2 GB

Standard biocide (chlorine): Trichloroisocyanuric Acid (commonly used in swimming pools)

Chlorine payload: 90 days at 4 doses/day
